Mission: Wilmington Preparatory Academy is committed to offering a high-quality base literacy, global knowledge, and life skills to prepare K-8 youths for college and life beyond. The academy will cultivate positive relationships and partnerships with parents as we challenge students to take personal responsibility for their education, health choices, and social well being. The extended-day and extended-year curriculum allows academic enrichment and a portal for discovery of the arts.

Needs Assessment: Wilmington Preparatory Academy is a K-8 public charter school which serves 145 students mainly from the City of Wilmington, but also from surrounding counties. The school follows a year-round calendar including more than 185 days per academic year. Approximately 65% of the students are eligible for Free and Reduced lunches. In 2014-15 school year the Academy made its expected growth, with approximately 52% of its students proficient in Math and Reading on the new North Carolina Accountability Model. However, this is below the State Average of 56.3% for both Reading and Math. Tutoring is offered during two of the school's intercession breaks (16 days) as well as each Tuesday and Thursday as part of an extended-day program beginning in January of each school year. Parents are supportive of programming that will provide individual academic help tailored for each student who may struggle in Reading and/or Math. Parents also like the idea of integrating technology to support educational goals. From data collected, Staff has expressed their support for opportunities to sit down one-on-one with their own students outside of regular class time to help these at-risk students hone their basic skills.
